

Nibbler's Notes

(Because the best things in life are cheese...)

Cheshire's Charm

Believed to have been created by the Romans and with a mention in the Domesday book,

Cheshire has held its own for centuries and is still the UK's best-selling crumbly cheese. The Nibbler's pick is Appleby's Cheshire (from £1.56 per 100g, Waitrose), an award-winning British cheese that's creamy, crumbly and with a tangy, salty freshness. Savour in a sarnie with spicy chutney, crumble onto salad, or just allow to melt on your tongue and enjoy the burst of flavours. For more information, visit www.applebyscheese.co.uk
